collar and sleeves for increased aerodynamics, full hidden zip,
Milltag logo silicone gripper on the hem, three rear pockets
with extra hidden zip pocket and flat-lock seams for comfort.

We create bespoke performance cycle clothing for every level of road cyclist from weekend warriors to the pro peloton.

Established in London by expert graphic designers and dedicated cyclists, our innovative products utilise the finest technical materials and are ethically tailored by hand in Europe.

Our blend of design knowledge, product development and hands-on customer service means we deliver only the best and most distinctive road cycling apparel on the market.

We believe that cycling, whilst being the toughest sport, should be enjoyed. That for every grimace on an ascent, there is delight in a descent and that well-earned beer at the end of a hard day in the saddle.

Milltag started in 2010, producing, limited edition, high quality cycling jerseys designed in collaboration with leading artists and designers from around the world.

Since then, we have created and sold thousands of different jerseys all over the world: from collaborations with artists including street artist INSA to classic bands like Pixies and Ride; from cycling projects including Herne Hill Velodrome and Rollapaluzza, to international companies such as Eurosport and the BBC, not to mention plenty of clubs, events companies, charities, and of course our own designs.

Our products are also race proven at the highest levels as the official racewear suppliers for the first two years of the ASO's Tour de Yorkshire and UK professional women's team Matrix Pro Cycling (including World and Olympic Champion Laura Trott).

With a complete range of technical products for all levels of cyclist, Milltag is now regarded as having some of the finest bespoke performance cyclewear available.

Our custom kit service has developed through our customers' early recognition of our quality, and their desire to have bespoke Milltag designed and manufactured kit.

We now pride ourselves as being the best quality custom jerseys on the market, with the highest customer service and a keen eye for great design. We believe your custom kit should be worth wearing more than anything off-the-shelf and therefore work tirelessly to provide both individually designed and supremely finished products.

Whilst many of our customers come to us with fully formed designs, don't worry if you don't know where to start.

Unlike other custom companies, we take a hands-on approach with every client and will do all we can to make sure you get the best designed kit possible. It could be little tweaks to your design, or starting with a completely blank canvas.

Plus, with our vast experience in graphic design and brand identities we know how to work sensitively with the most comprehensive of guidelines. You won't get us using design templates and simply slapping a logo on it.

We strive to create something that will make you proud, after all, putting on kit you love sets the tone for the day and could be the mental difference between winning or losing.

▲ **Defi Team Jersey**

Special edition Race Jersey. A more race fit* with prototype Carbon weave fabric, Lycra 'Power Cuffs' with integrated pixel silicone for grip, full hidden zip, Milltag logo silicone gripper on the hem, three rear pockets with extra hidden zip pocket and flat-lock seams for comfort.

All our products are made to the same high standards using the highest quality materials and handmade in our factory in Europe.

As with everything we undertake, it is paramount that our manufacturing partners understand what we are trying to achieve. That means we are constantly pushing them to produce more innovative and technical products in the best working conditions.

We endeavor to find the most environmentally sustainable production and delivery systems, but most importantly we aim to create products that last for as long as possible to reduce landfill.

A step-by-step guide to using Milltag for your custom cyclewear

1. CONTACT US

Email hello@milltag.cc or call 020 7138 3592 to discuss your needs, particularly if you have a deadline for delivery.

2. SAMPLES

We understand that you may want to check fit and finish of our products. Contact us and we can send out samples (requires a refundable deposit of £50) or drop in to our West London studio.

3. MINIMUMS

We always request that you order at least ten items of a single product for your first order. However, if you order over £1500 worth of one product then we will reduce the minimums to five for other items.

4. DESIGN

We can produce your own designs or if you require design, as every project is unique, please contact us with your requirements so we can calculate a quote.

5. CUSTOMISATION

All our products are fully customisable down to individual product personalisation like names or flags.

6. ARTWORK

To create the sharpest print, you should provide your logos and graphics in either Adobe Illustrator '.ai' or Encapsulated Post Script '.eps' using either Pantone or CMYK colours. We will send you a final digital artwork for approval before production starts.

7. ORDERING

To commence production we require 50% deposit and the rest on delivery for your first order. For clubs we can set up an online store for individuals to pre-order products.

8. PRODUCTION

Even during our busiest period (February to July), we will deliver to you in under 8 weeks from the order, often closer to 6 weeks. Outside this period it's nearer 4-6 weeks. Please check with us if your order is urgent.

9. DELIVERY

Dispatched to a single address.

For more info see FAQs (p.16)

OUR
PRODUCTS

SHORT SLEEVE JERSEYS

PRO

Developed for maximum performance at high speeds.

Features: Pro fit; Lightweight Stretchfit body and collar for maximum aerodynamics; Chrono sides and sleeves for increased turbulent airflow; Micromesh fabric underarms for wicking and comfort; Elastic band front hem and laser cut sleeve ends with ultra low-profile silicone gripper strip for increased aerodynamic fit; Flat rear pockets for more streamlined reverse profile.

CLASSIC

The standard jersey with all the important features for comfort in all conditions.

Features: Club fit; high wicking Coolplus micro-fibre fabric throughout; full length hidden zip; silicone gripper strip around hem; three rear pockets; and flat-lock seams for comfort.

CLUB

A highly technical jersey for the keen amateur rider.

Features: Club fit; high wicking Coolplus micro-fibre body, rear and collar; anti-bacterial and active wicking Carbonmesh sides; Lightweight Stretchfit sleeves for increased aerodynamics; choice of sleeve cuff (soft or mesh); full length hidden zip; silicone gripper strip around hem; three rear pockets with extra hidden zip pocket; and flat-lock seams for comfort.

SHORT SLEEVE JERSEYS

◀ HERITAGE

A relaxed retro fit jersey for on or off the bike.

Features: Cotton/poly mix fabric; short zip; silicone gripper around hem; three rear pockets; and flat-lock seams.

CLIMBER ▶

Developed for long days riding up large mountains at high temperatures.

Features: A completely new pro fit with fewer seams – elbow length sleeves integrated into the back and upper chest sections for better fit and less weight; wide mesh body and sleeves; Micro-weave fabric on the sides and underarms; Lightweight Stretchfit pockets; mesh cuffs with silicone gripper; full length hidden zip; silicone gripper around hem; and flat-lock seams for comfort.

▲ MEMBRANE

Pro protection from the elements whether you are racing or training.

Features: Pro fit; Waterproof stretch fabric front, rear, pockets and collar; Roubaix side panels for breathability; sleeve cuffs with integrated gripper; full length zip; three rear pockets; optional reflective details; silicone gripper around hem; and flat-lock seams for comfort.

LONG SLEEVE JERSEYS

▲ CLUB THERMO

Mid-weight jersey designed to be worn on its own or with a base layer.

Features: Club or Pro fit; Thermo-Coolplus micro-fibre material; full length hidden zip; silicone gripper strip on hem, three rear pockets and flat-lock seams for comfort.

▲ ROUBAIX JERSEY

A classic piece of kit that is a must for every cyclist's wardrobe.

Features: Club or Pro fit; Super Roubaix thermal fabric, full length hidden zip; silicone gripper strip on hem, three rear pockets; flat-lock seams for comfort; and optional reflective strips under the pockets.

BIBS, SHORTS & TIGHTS

CLASSIC BIBS ▶

Entry level bibs with smaller print areas.

Features: Side, back and cuff printed; elastane compression fabric; Eschler elite seat pad, Lycra 'Power Cuffs' with silicone leg gripper and white or black body-netting braces. (Available as standard shorts without bib).

◀ PRO BIBS

Fewer panels and top of the range chamois means these are the bibs for comfortable long days in the saddle.

Features: Side, front and cuff panel printed; elastane compression fabric; Cytech 'Road Performance' chamois with three levels of anti-bacterial impact foam for shock absorption, with memory foam for maximum comfort and rapid sweat wicking; 'No Sew' system around the centre for increased comfort; deep mesh 'Power Cuffs' with integrated silicone gripper; and white or black body-netting braces.

WINTER BIB TIGHTS ▶

The only option for keeping your legs warm during those tough winter training rides.

Features: Thigh and back panel printed; Thermo Roubaix fabric; Eschler elite seat pad; and white or black body-netting braces. (Available as standard tights without bib.)

ROADSUIT ▶

Race as aero as possible yet still carry all you need.

Body Features: Pro-fit, Lightweight Stretchfit body and sleeves for maximum aerodynamics; Chrono sides for increased turbulent airflow; Aeromesh power cuffs with silicone gripper; two flat rear pockets for more streamlined reverse profile; Shorts features: Side, front and cuff panel printed; elastane compression fabric; Cytech 'Road Performance' chamois with three levels of anti-bacterial impact foam for shock absorption, with memory foam for maximum comfort and rapid sweat wicking; 'No Sew' system around the centre for increased comfort; deep mesh 'Power Cuffs' with integrated silicone gripper.

◀ AEROSUIT

Our most aerodynamic pro skinsuit. Minimum panel construction and no pockets.

Body Features: Lightweight Stretchfit single piece body; Chrono two-piece articulated sleeves for increased turbulent airflow; optional collar or scoop neck; with full length hidden zip. Shorts features: Two-piece construction with full printing; elastane compression fabric; Cytech 'Road Performance' chamois with three levels of anti-bacterial impact foam for shock absorption, with memory foam for maximum comfort and rapid sweat wicking; 'No Sew' system around the centre for increased comfort; deep mesh 'Power Cuffs' with integrated silicone gripper.

GILETS & JACKETS

LIGHTWEIGHT HARDSHELL JACKET

Perfect all seasons jacket for changable conditions.

Features: Pro-fit; articulated sleeve design for minimum drag in the riding position; multi-panel windproof and showerproof membrane fabric, full zip, single rear zip pocket and optional reflective strips.

CLUB GILET

An essential item in any cyclist's wardrobe.

Features: Club or pro fit, windproof and showerproof membrane fabric front, upper back panels and collar; four-way stretch mesh back panel for increased breathability; two rear pockets; full length zip with fabric garage at the collar.

HANDS & HEADWEAR

▲ PRO CAP

A classic cycling cap in technical fabrics.

Features: Ultra-lightweight windproof fabric; digital printed unlimited colours; available as three or five panel versions; with rim tape for comfort.

◀ MITTS

Track style mitts with large print area.

Features: Printed Lycra back; multi-pad leather palm; and integrated finger pulls.

▲ CLASSIC CAP

Standard issue screenprinted cycling cap.

Features: Cotton/polyester fabric; screenprinted graphic/colour application (up to four colours); available as three or five panel versions; with rim tape for comfort.

EXTRAS

MUSETTE

Classic cotton feedbag with strap, single colour with up to four colour screenprint.

PRO MUSETTE

Fully printable tech fabric feedbag with strap.

FREQUENTLY ASKED QUESTIONS

CUSTOM PROCESS

What are the minimum orders?

We always request that you order at least ten items of a single product. However, if you order over £1500 worth of the same product then we will reduce the minimums to five for other items.

Can I see some samples?

We understand that you may not have seen a Milltag product in the flesh and want to check fit and finish before you place an order. Contact us either by email to hello@milltag.cc detailing your requirements or call us on 0207 138 3592 and we can arrange to send samples to you. We request a £50 deposit for sending out samples which is fully refundable when returned.

Do you ship worldwide?

Yes. Contact us to receive exact shipping costs.

What are the design/artwork costs?

A full bespoke design of a kit from scratch starts at £250 for jersey, bibs and cap and then £50 per item that follows. These are one-off costs to cover design time and artwork set-up. However, we deal with each customer on an individual basis and you may just require an update to a current design, so please contact us to discuss your needs.

How many colours can I use?

As our products are digitally printed you can use many as you want, we don't charge per colour apart from our Club Cap which is screenprinted and has a maximum of four.

What format does the artwork have to be in?

To create the sharpest print, you should provide your logos and graphics in either Adobe Illustrator (.ai) or Encapsulated Post Script (.eps). If you want to print photography it should be over 300 dpi the same size as the product being printed.

What is the lead time for delivery of my order?

Even during our busiest period (January to July), we will deliver to you in under 8 weeks from ordering, often closer to 6 weeks. Outside this period it's nearer 4-6 weeks. If you have a specific deadline please let us know as soon as possible so we can check our production schedule and see what we can do. The earlier you can tell us the better so we can book you a production slot - artwork can always follow later

Do I have to have the Milltag logo on my kit?

We spent many months researching and developing our kit and so it's very important to us that our logo is featured on the outside. However, we consider how our logo fits with your kit. We'll find the best position to work in harmony with your graphics and colours - we even change the colour of our logo to match. After all, this is your kit.

Will I receive a proof?

Yes. We will send you a digital proof to check positioning of graphics before production begins.

Where are your products made?

Our products are ethically handmade by a family run factory in Slovakia.

SIZING

How do I make sure I order the right size?

Use our size charts to work out your ideal garment size (see pages 17-18). If you are unsure of the sizing you require, contact us at hello@milltag.cc and we'll help you choose the perfect size or send you some samples. You can even come and visit us and try products on at our London studio.

All our products come in men's, women's and children's specific sizing and cuts for maximum comfort and perfect fit. If you require extra tailoring, for example a longer body for the taller rider, then just ask.

For jerseys, gilets and jackets, unless stated 'Pro Fit', our jerseys are a standard 'Club' fit for most cyclists so if you are usually a medium in a t-shirt then a medium jersey should be perfect for you, although designed to be a bit more snug to avoid flapping when riding.

For bibs and tights, these are designed with stretch fabrics to fit snugly. Check your waist size with the charts and if you are still unsure then please get in touch.

PAYMENT, ORDERING & AFTER SALES SERVICE

What is the payment process?

Payment is 50% up front and rest on delivery for your first order. After that it is we require full payment 45 days from the order date.

Can team/club members submit their own individual orders online?

Our Club+ system provides a secure online store for clubs with 100+ members to allow them to login during a requested order period and purchase the items they require from us direct. As well as removing a major headache of collecting orders and money from your members it also means we can offer discounts to your members if they purchase a number of items. Once the total order is collated and approved at the end of the period, production commences. Dispatch is then 4-6 weeks and can be shipped either to a club representative for distribution or direct to each individual club member.

My kit has been damaged, what can you do?

Contact us and if it's possible we'll repair free of charge.

If you've got any more questions then please contact us either by email to hello@milltag.cc detailing your requirements or call us on 0207 138 3592

With a motto "By Racers, For Racers", we are very proud to make the club kit for Leeds' FTR Race Club.

"Set up in 2016 by a close group of Yorkshire-based friends frustrated with the traditional club model, we decided to forge our own path.

We train, we race and we have fun. FTR Race Club is based in and around the Leeds area and aims to provide a fun, friendly and competitive place for riding, training and racing.

When searching for a kit manufacturer we wanted something a little different. As a company with a design led focus on performance cycling apparel we were immediately blown away with both the quality of Milltag's garments and their tireless approach to ensuring our designs were transferred seamlessly from paper to fabric."

Julian Pearce
clubftr.com

▲ FTR Jersey

2016 'Pro' Jersey. Pro fit: Lightweight Stretchfit body and collar for maximum aerodynamics. Chrono sides and sleeves for increased turbulent airflow. Micromesh fabric underarms for wicking and comfort. Elastic band front hem and laser cut sleeve ends with ultra low-profile silicone gripper strip for increased aerodynamic fit. Flat rear pockets for more streamlined reverse profile.

FTR Bibs

2016 'Pro' Bibs. Side, front and cuff panel printed: elastane compression fabric. Cytech 'Road Performance' chamois with three levels of anti-bacterial impact foam for shock absorption, with memory foam for maximum comfort and rapid sweat wicking. 'No Sew' system around the centre for increased comfort: deep mesh 'Power Cuffs' with integrated silicone gripper, and white or black body-netting braces.

Road Cycle Exchange needed new kit designing to promote their new pre-owned performance bicycle store and coffee shop. Here's what they had to say about the experience of working with us:

"You can't get much better than the customer service that Milltag provide. We did our research when picking a kit manufacturer to make sure that we got the best service we could.

When you get an email back almost straight away with all your questions answered you know you've picked the right company. The professionalism of the company in all aspects is exactly what we at RCE were looking for, making sure every attention to detail was dealt with.

Designs were pinged back and forth until we were both happy with what we had, ideas from Milltag really bought out kit to life, little ideas like the stitching around the cuffs makes the kit stand out. Delivery was prompt and we were kept up to date with all that was happening.

We couldn't have asked off much more from Milltag from start to finish they really thought about everything and it is a pleasure to wear the kit!"

Josh Hobbs
roadcycleexchange.com

RCE Jersey
2016 'Club' Jersey. Club fit with raglan sleeves, Coolplus body, Lycra 'Power Cuffs' with integrated pixel silicone for grip, elastane collar and sleeves for increased aerodynamics, full hidden zip, Milltag logo silicone gripper on the hem, three rear pockets with extra hidden zip pocket and flat-lock seams for comfort.

RCE Bibs
2016 'Pro' Bibs. Side, front and cuff panel printed; elastane compression fabric; Cytech 'Road Performance' chamois with three levels of anti-bacterial impact foam for shock absorption, with memory foam for maximum comfort and rapid sweat wicking; 'No Sew' system around the centre for increased comfort; deep mesh 'Power Cuffs' with integrated silicone gripper; and white or black body-netting braces.
